About AABPS

The **American Association of Bangladeshi Pharmaceutical Scientists (AABPS)** is more than just a professional organization. It is a vibrant community dedicated to empowering its members and shaping the future of pharmaceutical science. We foster professional growth through networking, mentorship, education, and the exchange of innovative ideas.

AABPS embraces diversity across scientific disciplines and encourages active participation from all members, creating an inclusive environment where collaboration thrives. We are committed to open communication within our Association, with partner organizations, and with the broader public to ensure that science remains accessible and impactful.

By delivering cutting-edge scientific programs, continuing education, and meaningful networking opportunities, AABPS equips pharmaceutical scientists to lead advancements in the discovery, development, and manufacturing of medicines and vaccines. Our mission is not only to support professional excellence but also to inspire solidarity and cultural pride among scientists of Bangladeshi origin across North America.

Why Join Us?

By joining AABPS, members gain access to cutting-edge knowledge on emerging technologies, valuable networking opportunities, and mentorship, along with the chance to forge new collaborations in delivery science and technology.

Our programs feature prominent speakers, engaging plenary talks, technical forums, and ongoing education, ensuring professional growth for scientists involved in the discovery, development, and manufacturing of pharmaceutical products.

AABPS connects you with expert mentors, career coaches, and tailored services that empower both students and professionals to achieve their next big career milestone.

A key goal of AABPS is to promote fraternity and solidarity among pharmaceutical scientists of Bangladeshi origin or those with roots in Bangladesh, building a strong, supportive community.

AABPS Website – Redesigned for Our Pharmaceutical Scientists

Our redesigned website offers easier navigation, dedicated pages for student activities, and resources for collaboration. It is designed to connect pharmaceutical scientists across academia, industry, and government with the latest updates and opportunities.

Re-frame: Introducing Our New Logo – Reflecting Innovation & Growth

We are excited to unveil our new AABPS logo, a symbol of innovation, growth, and community. This fresh design reflects our evolving identity while honoring our strong foundation.

Student Chapter Begins!

The AABPS Student Chapter has officially launched, engaging young scientists through mentorship, workshops, and networking opportunities. This marks a new era of nurturing the next generation of pharmaceutical leaders.

Young Scientist Support Fund (YSSF)

AABPS proudly launches the YSSF to recognize academic excellence and empower young scientists of Bangladeshi origin. This initiative will provide travel grants, mentorship, and research opportunities.

Member Achievements

We are proud to celebrate the outstanding accomplishments of our members who continue to bring recognition to AABPS through their excellence in research and professional contributions. **Paroma Arefin**, PhD student, Pharmaceutical Health Outcome and Policy Research, was awarded the AAPM Southeast Travel Grant. She also received the AMCP Southeast Travel Grant. Her work was further honored by being ranked among the Top 5% at ISPOR for her poster presentation.

Want to Become Our Next Success Story?

 Join us today at www.aabps.org or email us to be part of a thriving community
